<b>Title:</b>	Review: The debt dilemma of Developing Nations: issues and cases
<b>Year:</b>	1984
<b>Author:</b>	Tsaklanganos Angelos
<b>Abstract:</b>	In the Debt Dilemma of Developing Nations, Chris Carvounis provides an insightful overview of the external debt problems currently plaguing a number of developing countries. The book is neither comprehensive in its handling of Third World DEBT, Nor shrinkingly original in its analysis.
