Title:	Landscape in Athens due to the Olympic Games in 2004
Year:	2004
Author:	Georgi, Neratzia Julia, Kapnistos, M.
Abstract:	During the preparation of Olympic Games 2004 in Athens, many changes have been applied in Old Landscape e.g. parks, city squares, pedestrian roads.In addition New Landscapes have been contracted, especially around the main Olympic venues such as stadiums, access roads and their surrounding areas. Finally new transportations such as road ways, trains, ring road and airport, have been contracted with their surrounding landscapes. This paper presents a few cases about the construction of new landscapes and the reconstruction of old/existed landscapes.
