Artisans who do not keep shops and who receive daily hire for their labour † (*a*), labourers receiving daily hire † (*a*), and gardeners of Varoshia who were exempt under Turkish law (*b*), are exempted from payment of Verghi Temettu.

(*a*) Order of High Commissioner of 31st December, 1880.

(*b*) Order of High Commissioner of 22nd June, 1881.

By letter from the Ministry of Finance of 16 Shewal, 1289, agriculturists, for the purpose of assessing the Temettu tax, are divided into three classes. The first comprises those who, having sufficient land, do not engage in commerce but are always occupied with agriculture even though they should take charçoal or other material to town twice or thrice a year for sale, or transport goods with their carts in order to provide for the necessities of their existence. These are exempt from Temettu. The second comprises those who, not having sufficient land for their subsistence, besides their own, work other peoples' land for hire or in partnership or do business with charcoal, firewood, &c. Temettu should be collected from these according to their assessed profits derived from sources other than the cultivation of their lands. (This category does not include those who hire other peoples' lands for the purpose of farming and who pay tithe on the produce raised upon such land: these are exempt from Temettu.) The third comprises those who may have sufficient land for their subsistence yet, being well off and doing business in other ways, leave their agricultural business to be carried on by their farm servants and employés. Temettu should be collected from these in proportion to their profits other than those derived from the cultivation of their lands.

Further the Government has ruled that a man who carries on a lucrative business in addition to agriculture should be assessed for and pay Temettu on the profits derived from such business.

Gardeners are to be dealt with in the same manner as agriculturists.

* The tithe on carobs, cotton and silk cocoons is taken on exportation, the tithe on wound silk at the silk winders

† By an Order dated the 30th March, 1887, it has been laid down that this exception shall not apply to masons who are builders and contractors as we as masons.

Under an Annex to the Convention of 4th June, 1878, between Great Britain and Turkey the former power has undertaken to pay to the Porte annually a sum representing the excess of Revenue over Expenditure calculated on the average of the five years preceding the date of the Convention, excluding the produce of State and Crown lands let or sold during that period. The amount to be paid has been determined to be £87,686 per annum ; this to be in addition to 4,166,220 okes of Salt to be paid in kind.

The sum of £113 11s. 3d. per annum has also become payable, under the same Annex, since the 4th September, 1884, when the Cyprus Government took over the administration of the Lighthouse Service in the Island. Taking an average of the number of prisoners employed on Public Works and valuing their labour at 4½c.p. per man per diem, the value of the services of the convicts during the year may be put at £1,203 10s. 0c.p. The estimated value of the labour of prisoners employed on industrial work (shoe-making, tailoring, weaving, and dyeing) is £1,760 12s. 3c.p. Questions.	*Answers.*
XVII. What provision is made for the education of prisoners?	There are no schools, but well-conducted prisoners who can read are allowed to have religious books of their respective persuasions.
