

Title:	Unification of Archaeological Sites Project: Upgraded network of pedestrian links to the archaeological zones
Year:	2008
Author:	Georgi, Neratzia Joulia
Abstract:	The unification programme aims to restore the historic continuity of the city, and to create poles of attraction for its residents, also providing a better quality of life in an overall space with upgraded environment and functions, including culture, where the harmonious coexistence of various city elements, associated with its cultural history but also with its modern growth, will highlight the historic features of Athens.
