| Title: | Review: The debt dilemma of Developing Nations: issues and cases |
| Year: | 1984 |
| Author: | Tsaklanganos Angelos |
| Abstract: | In the Debt Dilemma of Developing Nations, Chris Carvounis provides an insightful overview of the external debt problems currently plaguing a number of developing countries. The book is neither comprehensive in its handling of Third World DEBT, Nor shrinkingly original in its analysis. |
